DRIGGS' NEW PATENT.

A RE THE ONLY INSTRUMENTS constructed on a truly scientific principle. in article 14 of the Treaty with the They have greater strength, and will remain longer in Tune than and will remain here been caucered. Office at Topeka construction is simple and natural; all the exhard been instructed to grant thirty days, is dispensed with the sound to instrument is dispensed with the sound to which time an appeal can be taken is dispensed with; the sound-boards are merely two arched planks of thin wood, like the front and back of a violin; the strings are attached to a strong Iron frame, which is separated and entirely independent of the case, thereby dispensing with the old harp form of stringing, by substituting straight bridges, preserving at the same time the Over Strung Bass, of which Mr. Daiggs is the Inventor. By these improvements we gain much more vibratory power, at the same time preserving all its purity and richness of tone.

They have received the highest testimonials from the Press, and all the principal Artists in the country, among whom are:

HARRY SANDERSON, L. M. GOTTSCHALK, MAX MARETZEK. S. THALBERG, THEODORE EISPIELD, WM. MASON. HERMAN WOLLENHAUPT, A. BARILI. FRANCIS H. BROWN. M. STRACKOSCH WM. HENRY FRY, CHAS. FRADEL.

MR. SEGESMUND THALBERG, the great pianist, ar. eays:-" I have examined your new Piano- The Great Ambassadors of Health to all forte, and I cordially approve of its system of construction-its principle, by which great inon crease of vibratory power is obtained, being 00 very simple and perfectly philosophical. The even derived from the experiences of one natone is grand and noble; it has great capacity tion. It consists of a compilation of testimofor sustaining the sound of singing, and its nials from the sick of every country-an unimce volume of tone or power I have never heard peachable record, the like of which has never offer to the Farmers and Mechanics of Kansas. excelled in depth, purity, and sympathetic been adduced in favor of any discovery or in- a business, both profitable to themselves and

N. Y. Tribune, says:-" I have examined your newly invented Piano-Fortes. They merit all the praise given to them by Messrs. Thalberg, As regards structure, they are original and humanity, and one entirely free from mineral was awarded it at the last New York State philosophical; in purity, volume, and continuiand other deleterious particles, was severely Fair. Call and see a full sized and rigged ty of tone; in vocal versimilitude, that crown- felt till this all powerful medicine was ushered my opinion, is destined to work radical chan- to cunz; they attack the RADIX OR ROOT of the of inquiry containing a stamp for return postage

find the results obtained are a very fine singing FORMATION. tone; great purity and brilliancy throughout the entire instrument, not often found in Pia nos constructed upon the old plan."

The N. Y. Times, July 12, says:-"We have now an instrument without an equal. It can sing with a smooth delicacy, perfectly unat tainable on any other instrument; an ordinary player obtains, with no exertion, the fullness of a Grand Piano Forte, and they must speedily supersede the old styles."

GENTLEMEN:-Having thoroughly examined and tested the Piano-Fortes invented and patented by Mr. S. B. Driggs, I am of the opinion that the tone resulting from his improvements, as exhibited in the instruments under examination, in point of richness, depth and brillian cy, equals that of the best Grand Piano Fortes, List of Assessments, for 1865, for the 3d and excels them in pure, musical intonation and and excess them in pure, musical intonation and excess them in pure, musical intonation and actual tone and power, thus approximating clo-

WEST'S IMPROVED PUMP.

FORCING AND LIFTING.

THESE pumps have now been in general use a number of years, and give better satisfaction than any other, and are recom-

THE BEST!

by Capt. Errieson, and other eminent Engineers We can refer to thousands using them, and guarantee that all will recommend them.-They are more simple in construction, and work easier, and cost less than all others

"Our readers will find the double-noting im proved Pump of J. D. West & Co., one of the est in the market. It is very simple, works to a charm, so that any child may use it; throws a stendy, continuous stream, and does not freeze in the coldest exposures, and is unusually chean. We say this knowingly, and give the testimony of our own accord, without the knowled; e or request of the proprietors."—
N. Y. Enc. Part, July 1st, 1863.

This may certify that I have been using, at notice, having used many others previously. They are simple in their construction, and not easily disarranged. JAMES A. WESS.

N. Y., Oct. 10, 1859.

J. D. WEST & Co.: We are pleased to state that the Pumps we had of you, about a year ago, have been in constant use, 12 hours each day, and raise for the use of our Woolen Factory, about 130 gallons per minute. They work with but little power, compared with pumps we lave used before, and do not get out of repair, and are

Solon Rounson to the Farmer's Club. Jan. 23: "No farmer who owns a well or cistern can ossibly afford to be without an iron pump. It should be at once a suction and force pump-a perfect little fire engine—such a one known as West's Improved Pump.' I speak of this pump because I happen to know it . . . to be very simple, durable, powerful and cheap, and it don't freeze up, nor get out of order once a year . . . I know this, and think I may be doing the farmers good by speaking of it. . . . A boy 10 years old can work it, and throw a continu ous inch-and-a-quarter stream. . . . It can be made to work in deep wells as well as in shal-

[From the New York Observer.] We have had in use for months past one of West's Pumps, which has given us more sat-isfaction as a force and lifting pump than any we have ever used. It is one of great power, and well adapted for ship's decks, mines, factories, green-houses, graperies, &c., &c. The Mining Chronicle and Railway Journal says: It is recommended for its extreme simplicity of construction, groat strength, and consequent durability and cheapness of repair.— There is no stuffing box—the pressure being held by a cup packing, like that upon the working piston, working in a cylinder, fitted for the purpose within the upper air chamberwhich we think a great improvement, as stuffing is so liable to be deranged, and leak under strong pressure, to say nothing of the loss by friction incident thereto. It has also two airchambers: thus the action of the valve is cushioned upon both sides by air-preventing water hammer and vacuum thump. The valves are very accessible, and simply and cheaply repaired. They work much easier than any pump we have ever seen; the 4 inch cylinder being worked by children in wells 100 feet deep, and as they are extremely cheap as well as simple and strong, we freely reco

GT. NECK, L. I., 1860. I have used this pump for one summer and winter, exposed to the North-West wind coming over Long Island Sound, being the coldest possible exposure, and at no time did it freeze, or were we unable at any time to pump water with great ease.

She undersigned, baving to use "West's Improved Pumps," cheerfully recommend them s simple, durable and powerful in raising and browing water, and for their case of action. security against frost, and low price, we believe hem superior to all others.

WARREN LELAND. Met. Hotel, New York. J. W POMEROY, YORKERS, N. Y. JNO. MESSEREAU, N. Y. DOMINICK LAWRENCE, Westchester.

CAMBRIDGE MINE, N. C., June 15, 1863." J. D. WEST & Co.: Gents-The pump which I ordered for our Mine is received and but to work in our un-Manufacture the most perfect Machine for derlay shaft, which we are surking. We find Sewing, of all kinds, ever presented to the American public, and challenge comparison with any Sewing Machine made in the United all the water in the shaft, which measures seven all the water in the shaft, which measures seven by twelve feet and 30 feet deep, and it was THE WEED MACHINE, with all their full when we commenced. It answers our exvaluable improvements, entirely overcome all pectations in every respect, and our workmen improved the state of the state service with but trifling expense for repairs.

Yours, respectfully, Bean Higgins.

We have plenty more such certificates, but think these are enough. For Pumps, Hose, Pipe, &c., address or call upon J. D. WEST & CO., 179 Broadway, N. Y.

DRUGS! DRUGS! T. C. SHREVE, M. D., Practicing Physician and Surgeon,

H AS on hand, and is now re-ceiving at his Store, in White Cloud, the best assortment of staple Medicines and Chemicals, Patent Medicines, Paints, Oils, Dye Stuffs, Family Dyes, Coal Oil, Coal Oil Lamps, Glass, Glass ware, Stationery, Perfumery, Toilet articles, &c., &c., ever offered in this market, all of which are selling at fair rates, for Cash only.
